

YRE met on 3/11/202. The First Day School teachers shared what they had done the past few months, and we talked a little about our hopes for the future when we can meet again in person.

We received a letter from Christine Imbiti; she told us about her family and how the pandemic has been affecting her school. We are aware that Christine will enter high school in January 2022 and the amount of money we will need to send will be greatly increased. We will find out exactly how much we will need to raise. We were grateful that we had money set aside in our fund for Christine, as we didn't find a good opportunity for fundraising in 2020. We are contacting the finance committee regarding next year's budget request.

We have not met as frequently as usual, so it was an added pleasure to gather in our support and care for our meeting's youth.
